PROFILE SUMMARY

Intermediate Computer Science student with a strong interest in Python and Django web development, and a growing focus on AI and data science. Comfortable analyzing and presenting data using Microsoft Word, Excel, and PowerPoint. Eager to apply classroom learning to real, practical projects and to keep building a solid foundation in software development and data-driven problem solving.

TECHNICAL SKILLS

Programming	Python, C++ (basics), SQL
Web Development	Django, HTML & CSS, REST APIs, Gunicorn, WhiteNoise
AI & Data Science	Pandas, NumPy, Data Visualization (Matplotlib), Scikit-Learn basics
Productivity & Tools	Git, GitHub, VS Code, MS Word, MS Excel, MS PowerPoint

PROJECTS

Django Portfolio Website — Python, Django, PostgreSQL, Render

Built a fully dynamic personal portfolio website deployed on a custom domain where all content (skills, projects, education) is managed live through the Django admin panel.

Student Data Analysis Tool — Python, Pandas, Matplotlib

Developed a tool to analyze student marks from spreadsheet data and generate automated summary performance charts.

Automated Report Generator — Python, python-docx, ReportLab

Wrote a script that automatically formats raw structured data into clean Word and PDF reports, reducing manual formatting time.

EDUCATION

Intermediate (Computer Science) (In progress)

Studying core computer science subjects, including programming fundamentals, mathematics, and computer studies.

Matriculation (Science) (Completed)

Built a strong foundation in mathematics and computer studies.

CERTIFICATES

- Python for Everybody Specialization — Coursera
- Introduction to Data Science — Cognitive Class / IBM

LANGUAGES

Urdu (Native), English (Fluent)
